2022 Tzu Chi Happy Winter Camp

A vegetarian diet can keep us healthy, protect our planet, and purify our minds. In this special epidemic period, human beings respect the common life on earth, cherish the environment, and cultivate a vegetarian lifestyle. By getting close to nature, learning environmental protection and ecology courses, observing the growth process of plants, and experiencing the ecological wonders of nature and the endless cycle of life. Learn about the abundance of products bestowed by nature, understand the urgency of vegetarianism, and cultivate a compassionate heart that cherishes auspiciousness. It is hoped that through this project, everyone can contribute to the protection of the earth.
