## 2023 Tzu Chi Happy Summer Camp

The enrollment for 2023 Tzu Chi Happy Summer Camp has just begun!

With the countdown of the Climate Clock, global warming and climate change are becoming increasingly urgent. Tzu Chi Happy Summer Camp focuses on educating children on Environmental Conservation, Filial Piety, and Diligence. Our humanistic courses aim to teach children to appreciate the earth with a compassionate heart, reduce the speed of global warming through a vegetarian diet, and repay their parents' kindness with gratitude. Faced with the Four Major Imbalances in the global environment and the setbacks in life, we must cultivate a mindset that is diligent, courageous, strong, and able to cope. We need to persist in completing tasks and take them seriously as well as be responsible for ourselves. Let us all vow to "love the Earth, love our life, and do our best."

In addition to English, Math, Chinese, and Tzu Chi Character Education, 2023 Happy Summer Camp curriculum also focuses on environmental ecology and social science, allowing children to experience the beauty of nature and the joy of giving back to the community. Meanwhile, a variety of talent courses will be offered, including Painting, Paper Clay, Arts and Crafts, STEM, Hip Hop Dance, Chess, Music, Creative Writing, as well as body strengthening classes such as Kickboxing, Muscle Strengthening Training, and Kids Pilates.

For 5th and 6th graders (incoming intermediate school students), the camp has specially arranged a series of subject strengthening courses such as Pre-Algebra, English Writing and Reading. The rich and diverse curriculum will expand children's exposure and vision in academics, physical fitness, and various talents, and provide them with a fulfilling and delightful summer break.
